Let Go

Vega 4

I'm stuck, I've loved everything I've lost
Gave up before what I started could
You were wrong about me
I was lying to both of us

Love, I'm confusing connection for love
I've confused our connection
Love, I'm confusing connection for love

Let go, you can burn the things we bought
Set fire to the demons that I brought
You deserve a better chance than
I could ever give you

Love, I'm confusing connection for love
I've confused our connection
Love, I'm confusing connection for love

Love, I'm confusing connection for love
I've confused our connection
Love, I'm confusing connection for love

I thought love had come
I've confused our connection
Why love?
I thought love had come and taken us
