

# Sway love (feat. Geneva May)

## Zai Baba

You have been caught in a present tense  
You have been abducted by that common sense I wasn't alienated by your love  
I didn't figure it all from above But I'm coming here  
I'm coming here  
I'm coming here Sway low baby  
Call me up and save me  
I've been thinking of ways to get us there babe
