Last Song

Hale

I'm breathing the air
I'm thinking of what you've done and said
You crumpled my heart
I was down on my kneesI'm hurting down inside
Wondered if you still even cared
I've cried all alone
I'm done with all these tearsI'm singing my last song
I'm singing my last song
I'm singing my last song
For you...I'm healing the wounds
I'm staring at stars across my room
My meaning is lost
I'm bound for defeatDiscover me inside
It's all just a memory left behind
One day I'll fly
So high above my feetI'm singing my last song
I'm singing my last song
I'm singing my last song
For you...I'm singing my last song
I'm singing my last song
I'm singing my last song
For you...And the first time
Is the last thing I'm gonna make
And the next in line
Is the one that whose gonna break youI'm singing my last song
I'm singing my last song
I'm singing my last song
For you...I'm singing my last song
I'm singing my last song
I'm singing my last song
For you...
You...
You...
