

# Chico's Prayer

Chico DeBarge

dear lord streets done change  
streets dont change prescription drugs done aint my flame  
they cant shoot my vein because the slugs fly and then  
your mother's thug dies  
but then i see the doves fly  
but i live with it  
you deal with it  
so my eye keeps open when i see jose  
i lived it  
i keep my head up high so mama cant see me cry if you listen there's a melody of how you live you life  
but i catch my rain and flick your flame  
friends turn my back on her like Carlos's day  
the curse and the gift is for you and the angels fly  
teach me how to be real with it and groove on (groove on)x5
