

# City Of Lights

Ry Cuming

I can see it in your eyes  
And I know that it's true  
my mind is aching now  
I see you far away  
but I know you can't choose  
to leave your New York  
the city of lights  
burning so bright  
taking you into space  
taking you back to me  
I, aaaaahh  
I can feel it in my mind  
and I know that it's true  
everything is changing  
I see you far away  
But i know you can't use your secret New York  
the city of lights  
burning so bright  
taking you into space  
taking you back to me  
I can feel way  
see the way  
and I know it won't be long  
I feel the way  
I see the way,  
no, no no  
I can see it in your eyes  
and I know that it's true  
you're leaving New York  
the city of lights  
burning so bright  
taking you into space  
taking you back to me  
see the sunlight  
opens my eyes  
taking you into me  
oh no, the city of lights  
yeaahh, ooooooh  
yeaah

I can see it in your eyes  
and I know that it's true  
I wanna make you mine
