

Downtown

Stereo Skyline

Yeah, yeah, girl, that's what I'm gonna do
Girl, maybe I made this just a little bit harder
Than it has to be but you'll see that one day
Just don't spin me around
Please don't mess me around again
Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
Watching old movies, thinking I should be with you
Yeah, girl, that's what I'm gonna do
And your friends say don't sweat it
Don't let her get into your head again
But maybe, yeah, one day
Just don't spin me around
Please don't mess me around again
Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
Watching old movies, thinking I should be with you
Yeah, girl, that's what I'm gonna do
Cause she knocks the socks off my feet
She's hot like a fever of one-oh-three
She turns my frown upside down
Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
Watching old movies, thinking I should be with you
Yeah, girl, that's what I'm gonna do
Cause I've been making my way downtown to your window
Staying up late on the phone talking real low
Watching old movies, thinking I should be with you
Girl, that's what I'm gonna do
Yeah, girl, that's what I'm gonna do
