Start Again

The Electric Soft Parade

Steal what you need
and leave the rest for me
You never took the time
to look at what you've got
and all the times you've failed
I was there to pick you up
You're never far away
From what you want to be

I've finally started to reach the end
Now I'm trying to start again
Can't you see that it's in complain
Now I'm taking the things that you need

I've finally started to reach the end
Now I'm trying to start again
Is there something I said before
Can't you tell us apart anymore?

So steal what you need
and leave the rest for me
You never took the time
to look at what you've got
and all the times you've found
I was there to pick you up
You're never far away
From what you want to be

I've finally started to reach the end
Now I'm trying to start again
Can't you see that it's in complaint
Now I'm taking the things that you need

I've finally started to reach the end
Now I'm trying to start again
Is there something I said before
Can't you tell us apart anymore?
