Your Town

LP

Another year gone and lost and lately
I would die just to talk or maybe hold you for a dayIt's not sunny like California
But the stories on every corner
Make the cold winds feel okayAlthough I know that we've gone on alone and we're caught in the dark
I'm already thrilled just to be in the place where you areI feel a little less lonely right away
Something in the air intoxicates
In your town
And even though the streets are filled with pain
There's a part of me that always wants to stay
In your town
And time stays frozen
And all seems golden nowGoing past old and new at break speed
Holding on tight while snapshots take me over
Turn the page
Wondering , do you know I'm here
Thinking I see you everywhere and nowhere
It's all the sameAlthough I know that we've gone on alone and we're caught in the dark
I'm already thrilled just to be in the place where you areI feel a little less lonely right away
Something in the air intoxicates
In your town
And even though the streets are filled with pain
There's a part of me that always wants to stay
In your town
And time stays frozen and all seems golden now
In your town
In your town
Oh, in your town
In your town
In your town
In your town
I feel a little less lonely right away
Something in the air intoxicates
In your town
And even though the streets are filled with pain
There's a part of me that always wants to stay
In your town
And time stays frozen and all seems golden now
In your town
In your town
