

# Step One Two

## Kaskade

Wake up, so much you and I can be  
Far beyond, a place we can see  
Listen to the silent prayer as it [praises you]  
so could escape

So we step one two, and  
know the rhythm now,  
step one two,  
let the music seep in  
step one two,  
move with me, there's nothing to it  
so c'mon  
so c'mon  
so c'mon

Come on, you and I will be in love  
So in love, so helpless, so new  
knowing we will ever see,  
the world is honesty  
and feel the love [the love]  
and feel the love [the love]

So we step one two, and  
know the rhythm now  
step one two,  
let the music seep in  
step one two,  
move with me, there's nothing to it

So we step one two, and  
know the rhythm now  
step one two,  
let the music seep in  
step one two,  
move with me, there's nothing to it

So we step one two, and  
know the rhythm now  
step one two,  
let the music seep in

step one two,  
move with me, there's nothing to it  
So c'mon [fade]
