

# Amen

## Kid Rock

Advisory - the following lyrics contain explicit language:

It's another night in hell, another child won't live to tell  
Can you imagine what it's like to starve to death?  
And as we sit free and well, another soldier has to yell  
"Tell my wife and children I love them," in his last breathC'mon now amen

(Amen)

Amen

(Amen)Habitual offenders, scumbag lawyers with agendas  
I'll tell you sometimes people I don't know what's worse  
Natural disasters or these wolves in sheep clothes pastors  
Now goddamn it I'm scared to send my children to churchAnd how can we seek salvation when our nations race  
relations

Got me feeling guilty of being white  
But faith in human nature, our creator and our savior  
I'm no saint but I believe in what is rightC'mon now amen

(Amen)

I said amen

(Amen)Stop pointing fingers and take some blame  
Pull your future away from the flame  
Open up your mind and start to liveStop short changing your neighbors  
Living off hand outs and favors

And maybe give a little bit more than you got to give, got to giveSimplify, testify, identify, rectify  
And if I get high stop being so uptight

It's only human nature and I am not a stranger  
So baby won't you stay with me tonight?And when I cross away, I'm breaking down  
I steal the sound to be someone, oh to be someone

You just settle down, ain't holding back  
You've called the grace of God and then He saves a child  
Wanna save a child?It's a matter of salvation from them patience up above

So don't give up so damn easy on the one you love  
(One you love)Somewhere you got a brother, sister, friend  
Grandmother, niece or nephew just dying to be with you  
You know there's someone out there

Who unconditionally, religiously, loves you  
So just hold on 'cause you know it's true And if you can take the pain, you can withstand anything  
And one day stand hand in hand with the truth I said amen  
(Amen)  
I said amen  
(Amen)  
I said amen  
(Amen)  
I said amen  
(Amen) Amen  
Amen  
Amen  
...
