

Sleep to Dream

Bettye Lavette

You have it all
The ceiling cracks
And you fly
But I fall again
Please say goodbye
Take your love out of me
And don't ask me why
I'm not your friend
Trying to stand
But you bend me again
What's up with that
Takes more then this for me to take off my hat
And I said it first
Between you and me
I sleep to dream
I sleep to dream
And I said it first
Between you and me
I sleep to dream
I sleep to dream
So you kissed me now
This face doesn't seem so brave after all
Please let me go
I need to hear myself think
I only hear the water flow
I'm not your friend
Trying to stand
But you bend me again
What's up with that
Takes more then this for me
To take off my hat
And I said it first
Between you and me
I sleep to dream
I sleep to dream
And I said it first
Between you and me
I sleep to dream
I sleep to dream
I said it first
Between you and me
I sleep to dream
I sleep to dream
I'm not your friend
Trying to stand
But you bend me again

What's up with that
Takes more then this
For me to take off my hat
Takes more then this
For me to take off my hat
Takes more then this
For me to take off my hat[Repeat x3]
And I said it first
Between you and me
I sleep to dream
I sleep to dreamAnd I said it first
Between you and me
