

# TEAR OFF YOUR CHAIN

## GALNERYUS

I feel so good seeing you raise your hands  
And shake your body all night long  
Let me tell you something, that's our band.  
Let's sing and dance all night along  
I can do magic of miracles  
I'll take you to the heaven  
I will give you blissful time  
You'll be livened! Are you tired of your life?  
Do you feel really so?  
You've met me now  
Do not think about the strange things  
But you make a racket and enjoy your night  
Just like me, shout as always  
Power! Devour! Ah! Let's make noise more and more  
You can forget your pain  
I can't wait anymore  
You don't need to refrain  
Let's make noise more and more  
It doesn't come again  
You must tear off your chain  
Shake your brain Do you wanna explore the end of the time  
I'll take you to the haven  
Oh, I will give you blissful time  
You'll be livened You say "I do not like myself ", really so?  
You've met me now  
Do not think about the strange things  
But you make a racket and enjoy your night  
Just like me, shout as always  
Stand up! Get up! Ah! Let's make noise more and more  
You can forget your strain  
I can't wait anymore  
You don't need to abstain  
Let's make noise more and more  
It doesn't come again  
You must tear off your chain  
Shake your brain Are you tired of your life?  
Do you feel really so?  
You've met me now  
Do not think about the strange things

But you make a racket and enjoy your night  
Just like me, shout as always  
Power! Devour! Yeah! Ah! Let's make noise more and more  
You can forget your pain  
I can't wait anymore  
You don't need to refrain  
Let's make noise more and more  
It doesn't come again  
You must tear off your chain  
Shake your brain Let's make noise more and more  
You can forget your strain  
I can't wait anymore  
You don't need to abstain  
Let's make noise more and more  
It doesn't come again  
You must tear off your chain  
Shake your brain
