

# Silly Millameter

George Clinton

Time to groove down  
Just when I can't face tonight  
Feeling wide awake  
I know that I should be sleepin', but it don't seem that late  
I sneak around behind at night  
And much to my surprise  
I ain't doin' no right, I'm keepin' time with  
I know, I only, catches up with time I'm ahead of time inside  
I'm ahead of time inside  
Ahead of time inside  
Ahead of time inside  
Get ready Just when I can't face my watch  
Gettin' a little bit late  
Much too soon to get it started  
But I can not wait  
Shake, skake boy what's wrong with ya You know what you gonna get cha Shake boy what's wrong with ya  
You know what's gonna get cha  
I sleep around behind the high times bed  
And much to my surprise  
Money catches up with time  
But I am ahead of time inside  
It's time, it's time Shake, shake boy what's wrong with ya You know what's gonna get cha  
Shake boy what's wrong with cha  
You know what's gonna get cha  
Move your body, yeah heh heh...  
Just when I can't face my watch  
Gettin' a little bit late Much too soon to get it started  
But I can not wait, no I sleep behind, behind, behind the high times bed  
Much to my surprise  
Not only catches up the time  
Ahead of time inside  
Shake, shake boy what's wrong with you...  
Boogie right, boogie right...  
Not only catches up the time  
WA DA DA DA DA DA DA DA... Come on and boogie  
I can funky, you can funky, we can funky...
