

# Dream

## Lindsey Webster

Far away is a place they say

Where we can be free to be who want to beWell I won't wait for the day the to come

When you and I can live as one

It's not as far as it may seem

The dreamI can see

As far as it may be

It is coming near

The dream will soon be real

I believe there's a time when we

Will look into each other's eyes

Without a trace of animosityWell I won't wait for that day to come

So I vow now to love each one

For we must live without fear until

We dream

I can see

As far as it may be

It is coming near

The dream will soon be real
