Get back

```
(Get back)
 If you can't take it then get back
            Get back
            (Get back)
            Get back
            (Get back)
 If you can't take it then get back
            Get back
            (Get back)
            Get back
           (Get back)
     If you can't take it then
         DJ spin it back
        Know that I like it
     When you do it like that
        Eyes on my waist
    Feel you better think fast
      Got that kind of body
   Make you wanna spend cash
 Shake it like you seen them do it
           In the video
       Ladies on the floor
     Let me see you get low
         Fellas at the bar
 Won't you spend a little dough?
        This is how I do it
  When I'm tearing up the floor
       I came to party baby
    You might think I'm crazy
By the way I'm moving to the beat
   You're standing on the wall
    What you come here for?
     You wanna feel the heat
     Dance and lose control
            Get back
            (Get back)
            Get back
            (Get back)
            Get back
           (Get back)
 If you can't take it then get back
            Get back
            (Get back)
            Get back
            (Get back)

       You like it, I've got it
             1, 2, 3, 4
         Would you like it
           If I tease you
        Get you really hot
      Watch me turn around
 Then let me show you what I got
       Baby, if you're ready
  Won't you step up to the plate
Don't be scared of how I'm moving
      Boy, don't play it safe
       Let me see you move
       Let me see you dance
      Let me see you bounce
        Danja, bring it back
             Get back
            (Get back)
             Get back

            (Get back)
             Get back
            (Get back)
 If you can't take it then get back
             Get back
```

```
(Get back)
Get back
(Get back)
If you can't take it then get back
Get back
(Get back)

If you can't take it then get back
Get back
(Get back)
Get back
(Get back)
If you can't take it then
```
