

# Space Can Come Through Anyone

## Garbage

You use and you lose me no you're not excused see  
You jumped up on my back and now I'm gonna break free  
You're raising my blood faster than a heart attack mac  
If you change you're mind by what's inside a girlwatch what you wish for  
Watch what you wish forwhat are you like  
When you're lost you make no sense  
What are you like  
Will you fight till nothing's leftand just like the sun  
We rotate come back again  
Just like the sun  
Space can come through anyone  
Space can come through anyonewatch what you wish for darling go!there's nothing else for it  
Cut it out cause we've had it  
Split it down the middle  
Cut a check & then cash it  
Split with me in full  
Fill the world with love jack  
If you change your mind by what's inside yourselfwatch what you wish for  
Watch what you wish forwhat are you like  
When you're lost you make no sense  
What are you like  
Will you fight till nothing's leftand just like the sun  
We rotate come back again  
And just like the sun  
Space can come through anyone  
Space can come through anyonejust like the sun  
We rotate come back again  
Just like the sun  
Space can come through anyone  
Just like the sun  
We rotate come back again  
Just like the sun  
Space can come through anyone  
Space can come through anyonewatch what you wish for
