## Creepmime!

[All artists are subjected to the same social prejudices. It's a fight 'til]  
[the bloody end so hang on in there. Fuck the rituals]My godform's a potent reality  
A living formula for all shades of divinity  
I've felt its soul  
Introduce me to modes of insanity  
And infinity  
It's put me in touch with a real realityMy life forms in ways which you'll never see  
A growing enigma for the thoughtless majority  
I've had their rules  
Reduce me to moments of poverty  
Self discovery  
I've been put to their test  
And I feel a shameless certaintyI'm unknown colour and diversity  
A uniting harmony for a world of disharmony  
Can you feel it pull?  
Seduce you?  
Rip and tear at your sanity?  
Your entropy?  
It will bring you dangerously  
Close to understanding meChiaroscuro  
I see, I know the light for the shadows  
Liberty's sacred not shameful  
Chiaroscuro  
Fuck the rituals  
Follow your heartI live a life of infinite possibilities  
I move in other dimensions and realms of being  
I experience unknown pleasures  
I have conquered my fear of the known  
I am removed from the human framework  
You cannot take this away
