

Angel 2 Me (Inst.)

McKay

Lady I love you.
I just wanna show you.
From the way you touch me and kiss me to the sparkle in your eye. Oh, how I love you.
I just feel so lost without you.
With my love and intuition, you'll never have to say goodbye. Maybe you have been questioning if I'm still in
love with you.
It's my time to show and prove there ain't nothing I won't do.
All I really need a second so please don't walk away.
I've got things I wanna say. You've got me feelin' lucky You're so lovely in every way
and when we're touchin' There's something
That I really can't explain
Girl take my hand
cause I'm here to remind
That you've got my full attention and you're always on my mind. Lady I love you.
I just wanna show you.
From the way you touch me and kiss me to the sparkle in your eye. Oh, how I love you.
I just feel so lost without you.
With my love and intuition, you'll never have to say goodbye. Got me singing that I need you desperately.
Ain't no reason that you gotta question me.
It's a fact that I want you in my life.
No matter what you're an angel to me. See I don't want another.
Baby there's no other.
Baby,
You got me cheesin and feelin some type of way.
You've got me feelin' lucky You're so lovely In every way
And when we're touchin' There's something That I really can't explain
Girl take my hand cause I'm here to remind
That you've got my full attention and you're always on my mind. Lady I love you.
I just wanna show you.
From the way you touch me and kiss me to the sparkle in your eye. Oh, how I love you.
I just feel so lost without you.
With my love and intuition,
you'll never have to say goodbye.
Lady I love you.
I just wanna show you.
From the way you touch me and kiss me to the sparkle in your eye.
Oh, how I love you.
I just feel so lost without you.
With my love and intuition,

you'll never have to say goodbye.Maybe I'm goin crazy,

But I know, It's L.O.V.E.

and you're mine tonight.
