Rocketship

Shiny Toy Guns

Can we get away? Far away
Lets leave this place
Will you come with me?
Are you down to turn your world aroundIt's you and me tonight
Leave it all behindLets go for a rideSay goodnight to gravity
Hold on to me
The passing stars light the way
The future's here todayIt's you and me tonight
Leave it all behindGet in my rocketship
Well leave the light of day
Staying on the turning away
Theres no tomorrowJust today
Together we will follow, fly away
Never mind tomorrow
Just todayLeave it all behind
Lets go for a ride
