

# Mass Hysteria

## KoÑ•n

We are the pain  
We are the shame  
We've gone insane

Inside where no one's aroundI am to blame, for everything

I like this game, that you all  
make me playI'm done being there for others

They have their pain and so do I  
Don't need to feel it all over

I try to hold on and you bring me downWe are estranged

We are deranged  
I can't explain

How you all break me apartI am to blame, for everything

I like this game, that you all  
make me playI'm done being there for others

They have their pain and so do I  
Don't need to feel it all over

I try to hold on and you bring me downWe wait, we hate

We try to get away  
Mistake, my pain  
It has been lead astray

I'm Looking around, I drop to the ground  
Why does this have to end this wayFeeling numb, so long  
Oh God it's just everyday

It's everythingNow I pray for all of them to go away!I'm done being there for others

They have their pain and so do I  
Don't need to feel it all over  
I try to hold on and you bring me down
