Where Is That Place?

Tonio K.

It used to be the teacherâ€™s favorite country
It used to be the showplace of the west
Everything worked
and everyone smiled
It used to be another word for the best

Where is that place?
Where did it go?
Whatever happened to that place?
god only knows
That isnâ€™t it over there
and this isnâ€™t it here
Now how did a place that big just disappear?

You could see it in the distance
Across the desert
You could see it
from a hundred miles away
It glowed in the dark
It lit up the world
It seemed as if
the sun shined night and day

Where is that place?

They dealt in fantasy and fashion
They dealt in flesh and blood
They dealt in multiple millions of dollars
You could buy anything but love

Where is that place... ?
