

# Where Is That Place?

Tonio K.

It used to be the teacher's favorite country  
It used to be the showplace of the west  
Everything worked  
and everyone smiled  
It used to be another word for the best

Where is that place?  
Where did it go?  
Whatever happened to that place?  
god only knows  
That isn't it over there  
and this isn't it here  
Now how did a place that big just disappear?

You could see it in the distance  
Across the desert  
You could see it  
from a hundred miles away  
It glowed in the dark  
It lit up the world  
It seemed as if  
the sun shined night and day

Where is that place?

They dealt in fantasy and fashion  
They dealt in flesh and blood  
They dealt in multiple millions of dollars  
You could buy anything but love

Where is that place... ?
