Keep it Together

Hot Water Music

Keep it together now
As you wish as you know how
It'll all work out
When nothing ever seems to be
Exactly what you need now
How fast now, to drench yourself and lastAll that you know
Is all that you've figured out
But you'll never land again
Until you stop falling downDon't let yourself wither now
Perpendicular to the ground
It'll all work out
And don't ever doubt the days
As if they're not apt to change now
It'll all come around
So brace yourself and last.All that you know
Is all that you've figured out
But you'll never land again
Until you stop falling downAll that you know
Is all that you've figured out
But you'll never land again
Until you stop falling downSo alive, even cut down to size
We're here to recognize our place in time.
The roll we play, the days we make
And the ones made without us around
We all must carry on
When we can't carry on with what we want nowAll that you know
Is all that you've figured out
But you'll never land again
Until you stop falling downAll that you know
Is all that you've figured out
But you'll never land again
Until you stop falling downAll that you know
Is all that you've figured out
But you'll never land again
Until you stop falling down
