Chemicals Collide

Cloud Cult

I was out paying close attention
Or was I lost inside my thoughts?
These days it's hard to tell what's outside from what's in my mind

And oh, God, it's beautiful, insatiable
The way our chemicals collide

I was out catching up to tomorrow
Or was I caught up in the past?
These days it's hard to tell what's out in front from what's behind

And oh, God, it's unforgettable, unpredictable
The way our chemicals collide

I was sleeping in the lillies
Or was I up all night?
These days it's hard to tell what's half asleep from fully alive

We were loving like a landslide
Or were we in a fight?
These days it's hard to tell what's right from wrong and wrong from right

And oh, God, it's beautiful, insatiable
The way our chemicals collide
And oh, God, it's unforgettable, unpredictable
The way our chemicals collide
