

# Little Hollywood

Tim Gearan

All along you had the right idea, Little Hollywood  
You never could  
Stand the thought of keeping this thing small, aww naw

Carry on  
You won't need many clothes to wear  
And you could do alright for a song... out there

I could be wrong, but last I heard the wolves out west they burry young  
Or anyone  
With a trick, standing on a diving board you know, off they go

Carry on  
You won't need many clothes to wear  
And you could do alright for a song... out there

Shed your skin and don't forget the last you saw a snowy day  
You fell away  
And as you slept you drempt you wept tears colors of the trees back here, didn't you dear

Carry on  
You won't need many clothes to wear  
And you could do alright for a song... out there

---
