

# Wondering What Everyone Knows

## Budgie

I never walk in the street  
Or gather round where people meetWith you on my head  
And me on my toes  
Wondering what everyone knows  
Wondering what everyone knowsI buy a stamp for the post  
But all my letters are lost  
With you on my head  
And me on my toes  
Wondering what everyone knows  
Wondering what everyone knows  
Wondering what everyone knows  
Darkness in white  
You can feel through the light  
Of the darkest cloud and touch my hand  
Darkness in white  
You can feel through the light  
Of the darkest cloud and touch my handYou are a sound in my head  
Sew up my ears with your thread  
With you on my head  
And me on my toes  
Wondering what everyone knows  
Wondering what everyone knows  
Wondering what everyone knows  
Darkness in white  
You can feel through the light  
Of the darkest cloud and touch my hand  
Darkness in white  
You can feel through the light  
Of the darkest cloud and touch my hand  
My hands  
Touch my hands.
