# The Quest

## Bryn Christopher

I'm leaving tonight
Going somewhere deep inside my mind
I close my eyes slowly
Flowin' away slowly
But I know I'll be alright
It's coming stronger to me
And I know someone is out there
Lead the way
Lead the way
Show me the answers I need to know

What I'm gonna live for
What I'm gonna die for
Who you gonna fight for
I can't answer that

All my life/love it is
It is all my love
All my life/love it is
I know it is a life to live lately
From above I hear
I hear the sound of them sinkin'
I feel numb, I'm alive
I know I'm getting closer

What I'm gonna live for
What I'm gonna die for
Who you gonna fight for
I can't answer that

My life has had it's share of troubles
And now I found a place to go
I've said goodbye to all my troubles
'cause now I've find my place to go

What I'm gonna live for
What I'm gonna die for
Who you gonna fight for
I can't answer that

What I'm gonna live for
What I'm gonna die for
Who you gonna fight for
I can't answer that

What I'm gonna live for
What I'm gonna die for
Who you gonna fight for
I can't answer that

Live for
Die for
Fight for
