He Called My Name

Scrapomatic

Hey fate, you're giving slack
Get out of my face, get off my back
Please, Jesus, send me back to school
It's a natural place for a natural fool

Never, ever, ever, ever, ever did he call my name
The mind is willing but the heart is giving way
Hey, hey

I need sleep in a foreign place
A well worn smile and a gentle face
I ain't hiding in plain sight
You can meet me down at the C.C. tonight

Never, ever, ever, ever, ever did he call my name
The mind is willing but the heart is giving way
Hey, hey

Rollin' on a run down battery
Scratching up the loose change
Call my name
Well the truth come at you in a whisper
Holler, I won't complain
Call my name

I don't need a preacher
Trying to tell me that I gotta get saved
I'm drowning in the river
Tell the fisherman I took the bait

Call my name!
