

Follow My Lead

Ariel, Zoey & Eli

Waiting for hours in the cold rain
Listen closely here comes a train
Follow(?) my signal do as I say
And sister don't you worry

The world is a scary and dark place to be
So I started a group of people like me
We all want to fight for what we believe
So sister we'd better hurry

I'm no criminal but I do as I please
Oh dear sister please believe me
Join the gang respect the creed
Do as I do follow my lead
Do as I do follow my lead

Listen close for the bells to ring
We may take different roads to build our team
It's dangerous here don't make a scene
And brother don't you worry

Do as I say all will go well
This city has many secrets to tell
If something goes wrong run like hell
And brother we'd better hurry

I'm no criminal but I do as I please
Oh dear brother please believe me
Join the gang respect the creed
Do as I do follow my lead
Do as I do follow my lead

If you want to end this tyranny
Then let's go on please follow me
I believe this is our destiny
Do as I do follow my lead
Do as I do follow my lead

The clock is ticking and time's running out
We don't have time to sit around

So come with me I won't go alone
There's no way I'm doing this on my own

We'll show them all we're done with their games
You and me and the rest of our gang
We're strong as two but tougher as one
And darling our adventure has only begun

I'm no criminal but I do as I please
Oh dear sister please believe me
Join the gang respect the creed
Do as I do follow my lead

If you want to end this tyranny
Then let's go on please follow me
I believe this is our destiny
Do as I do follow my lead
Do as I do follow my lead

Do as I do follow my lead...
