More Than Anything (feat. Emeli SandÃ©)

Rudimental

I'm on my knees, begging please
Teach me how to love like my mother baby
She loved him every day, thick and thin
She loved daddy like crazyI would kill, I would steal
Have a feel, have a heart like my brother
He'd run from life, won't think twice
Give his life to fight for his baby mamaSee if I could love
Don't you think that I'd love somebody
If I could trust
Don't you think that I'd let you touch me
Teach me to love
I hope there's still hope for me
I wanna love
I wanna loveMore than anything
More than anything
Teach me everything
I wanna loveI wanna feel your kiss
Oh I mean really feel it
What I would give
To say you didn't really mean itI wanna ride over that
And the kids on television
God knows I try
God knows I trySee If I could love
Don't you think that I'd love somebody
If I could trust
Don't you think that I'd let you touch me
Teach me to love
I hope there's still hope for me
'Cause I wanna love
I wanna loveMore than anything
More than anything
Teach me everything
I wanna loveDon't you leave me
Don't you leave me, don't you deceive meDon't you leave me
Don't you deceive meMore than anything
More than anything
Teach me everything
I wanna loveIf I could love
Don't you think that I'd love somebody

If I could trust
Don't you think that I'd let you touch me
Teach me to love
I hope there's still hope for me
'Cause I wanna love
I wanna love
