PREMIERE

Itâ€™s been so common
Itâ€™s been an honest mistake
This time I want it
Thereâ€™s no other way

Iâ€™ve made my promise
It has a damage done, you say
No need for numbers
Thereâ€™s no other way

Cuz all Iâ€™ve been waiting
Is for you to come with
Will you come around?
Will you care about me anyway?
And all that I wasted
Falling down and then apart

I fell out and became lost
I shifted into a new position
Slow swimmers can stand across
The middle of a new transition

Cuz all Iâ€™ve been waiting
Is for you to come with
Will you come around?
Will you care about me anyway?
And all that I wasted
You never realized
Itâ€™s coming from the income

And I was seated
Along the way committed
It used to come
Itâ€™s not hard since you fell out

Cuz all Iâ€™ve been waiting
Is for you to come with

Will you come around?
Will you care about me anyway?
And all that I wasted
You never realized
It's coming from the income
