

Old and Tired?

[Nasum](#)

Giving up, eating shit
Dropping out your whole life
Your old ideals, caving in But you don't know that you still serve a purpose
As an ugly example to all mankind
But you don't know that you still serve a purpose
Although you are too weak to fight Old and tired? That's pure shit
Your mind is too weak
Giving in for temptations of society But you don't know that you still serve a purpose
As an ugly example to all mankind
But you don't know that you still serve a purpose
Although you are too weak to fight, fight
