

Love Is Magic

Drew Holcomb & The Neighbors

He quit believing in music, April '94
She brought back his faith with a kiss and a Cabernet
Too much time driving alone
Now they have each other, body and soul
She dances with him like the eye of a hurricane Jesus walked on water
He made a blind man see
We all just want someone to ride in the passenger seat Love is magic
It's a beautiful, wonderful, marvelous, mysterious thing
Love is magic
Makes you wanna dance, wanna laugh, jump around and make you sing
Love is magic
Her blue eyes can sting you the deepest when the sun goes down
She said in a whisper don't you wish you could fly
He answered her with a nervous laugh,
"I wouldn't know where to go without a road map"
Just take me she says with her arms outstretched to the sky Jesus walked on water
He made a blind man see
We all just want someone to ride in the passenger seat Love is magic
It's a beautiful, wonderful, marvelous, mysterious thing
Love is magic
Makes you wanna dance, wanna laugh, jump around and make you sing Love is magic
It's a beautiful, wonderful, marvelous, mysterious thing
Love is magic
Makes you wanna dance, wanna laugh, jump around and make you sing
Love is magic
It's a beautiful, wonderful, marvelous, mysterious thing
Love is magic
Makes you wanna dance, wanna laugh, jump around and make you sing Make you sing (x8)
