

# Cold

## Darkseed

Your hand ran over me  
I got your sympathy  
But now you broke my neck  
I feel it in my head  
I see it in your eyes  
I feel it in my head  
See, you're feeling cold  
It's cold inside of you  
I'm almost sure  
You don't know what you do  
But now I turn from you  
Don't want to be your fool  
No more for you to beg  
See, you're feeling cold,  
It's cold inside of you  
My frozen heart  
No more for you to feel  
Cold... cold... cold  
Receive but what you give  
In your my devil lives  
I wish you all the worst  
You feel it in my head  
I see it in your eyes  
You feel it in your head
