

# Kill 'Em All

## Crossfaith

Now we're coming in hot  
Nobody can stop us tonight (can stop us tonight)  
Don't need another imitation  
Get out of my way  
I'll never let you pass me  
You're a fake and I'm in the fast lane  
Left you all out of time for thinking  
Get out of my head  
Break, break and break it tonight  
Break, break and break it tonight  
Break, break and break it tonight  
Break and break it tonight  
Break, break and break it tonight  
Never gonna see them again  
Attack, attack and attacking tonight  
I see you hiding  
Break, break and break it tonight  
I'll show you what we got when worlds collide  
We stand up and scream  
Kill them all  
Yeah we're coming in fast  
Nobody can stop us tonight (can stop us tonight)  
Keep up or find yourself in the dust  
Get out of my way  
Consume the liquid fire  
Close your eyes and feel the raw energy  
You can't stand here in front of me  
Get out of my head  
Break, break and break it tonight  
Break, break and break it tonight  
Break, break and break it tonight  
Break and break it tonight  
Break, break and break it tonight  
Never gonna see them again  
Attack, attack and attacking tonight  
I see you hiding  
Break, break and break it tonight  
I'll show you what we got when worlds collide  
We stand up and scream

Kill them all  
Kill them all!  
Kill them all!  
Kill them...  
Break, break and break it tonight  
Break, break and break it tonight  
Break, break and break it tonight  
Break and break it tonight  
Break, break and break it tonight  
Never gonna see them again  
Attack, attack and attacking tonight  
I see you hiding  
Break, break and break it tonight  
I'll show you what we got  
The worlds collide in front of me  
Attack, attack and attacking tonight  
When the worlds collide  
We stand up and scream  
Kill them all  
Yeah!  
Kill them all!
