Feel It (Feat. Reema Major)

Stereos

I've been waiting for something
To get me goin' like you do
But it's fading into nothing
I need for you to feel it tooCan't you see what I see,
'Cause I want this forever
Feelin it, feelin it baby
Well you need what I need
We can do this together
If you feel it you can save meI want you to feel it!
I wanna feel your heart beating faster
I want you to feel it!
Just save me from this outright disasterHow could I be alone
After having you with me
And I'll wait by the phone
Hoping that you'll see all that we could beCan't you see what I see
'Cause I want this forever
Feelin it, feelin it baby
Well you need what I need
We can do this together
If you feel it you can save meI want you to feel it!
I wanna feel your heart beating faster
I want you to feel it!
Just save me from this outright disaster
I want you to feel it!
I wanna feel your heart beating faster
I want you to feel it!
Save me from this outright disasterShoot for the moon
Play with the stars
Fight with the wind
Feel it within
Rock with the band
Sing with the sound
Let's play lost,
Then get found
Perfect means when I'm with you
Like a by b, we're the perfect two
Walk on sea,
Swim with the sand
Hold my hand you can play in my band

Make my heart beat,
Beat like drums
Bread no crums
You ain't gotta sing
Baby you can hum
I feel it in my soul,
I feel it in my tums
I'm shakin', like snares
I'm sayin' don't be scared
I'm just sayin' be prepared
'Cause we goin' somewhere
That I ain't ever been,
And you've ever been
Let's meet halfway,
Meet me within
It's just us against the world
I'm the queen...I want you to feel it!
I wanna feel your heart beating faster
I want you to feel it!
Just save me from this outright disaster
I want you to feel it!
I wanna feel your heart beating faster
I want you to feel it!
Save me from this outright disasterI want you to feel it
I want you to feel it
I want you to feel it
