

Is That Too Much To Ask

Biboulakis

Wish me luck give me somethin'
Help me out and I'll go there
Wish me luck give me somethin'
Help me out and I'll go there All I want is a brand new truck
With one eyed jacks and beginners luck
The doctors script for the perfect drug
Get it all while I can But I got no money and I got no man
I drive around in a beat up van
I ride on coffee and percodan
Get it all while I can, get it all while I can Is that too much to ask?
Is that too much to ask?
Is that too much to ask?
Is that too much to ask?
Come on now So people tell me to clean up my mess
Like I was sweet sixteen in a dirty dress
But I'm wiser now so I must confess
That I get it all while I can, yeah
I get it all while I can Is that too much to ask?
Is that too much to ask?
Somebody told me
Is that too much to ask?
Is that too much to ask?
Just make it real and make it last Someday maybe I'll understand
This crazy old life is in my hands
Someday maybe I'll figure it out
Somebody help me anybody tell me Wish me luck give me somethin'
Help me out and I'll go there
Wish me luck give me somethin'
Make it real and make it last [Incomprehensible] Is that too much to ask?
Is that too much to ask?
Somebody told me
Is that too much to ask?
Is that too much to ask?
Just make it real and make it last
