## Jonathan Boulet

We're calling out your name friend  
We're calling 1 by 1  
We're calling out your name friend  
It's only just begun

We're calling out your name friend  
We're calling 2 by 2  
We're calling out your name friend  
You've lost the right to choose

Don't you run, leave it all behind

We're calling out your name friend  
We're calling 3 by 3  
We're calling out your name friend  
Sell you what you don't need

We're calling out your name friend  
We're calling 4 by 4  
We're calling out your name friend  
You're dead and you're ignored

Don't choose, run, leave it all behind
