January

Goldfinger

I know you told me this before
I know you told me this a million times
You say you don't know how you feel
You don't know if you even love me anymore
If she was a good kisser
Then I know how much I'd miss her
January came
By April you have stayed
June I was in heaven
July was just the same
September rolled around
October wore a frown
By Christmas we were through
I wish I didn't say I'm sorry
I wish you loved me still the same
I wish I wasn't such a wishy-washy prick
I wish I said just how I felt
If I was a good listener
Maybe you would still be here
January came
By April you have stayed
June I was in heaven
July was just the same
September rolled around
October wore a frown
By Christmas we were through

I still miss the way we touch
I miss the way you bite my tongue
I miss the way you run away
You run away
January, February, March, April, May
June through December I wish you would stay
I know you're leaving me
January, February, March, April, May
June through December I wish you would stay
I know you're leaving me
I know you told me this before
I know you told me this a million times

You say you don't know how you feel
When will you know just how you feel?
January came
By April you have stayed
June I was in heaven
July was just the same
September rolled around
October wore a frown
By Christmas we were through
January, February, March, April, May
June through December I wish you would stay
I know you're leaving me
January, February, March, April, May
June through December I wish you would stay
I know you're leaving me
