

# Educated

## Femme

You burn a hole in my heart  
You burn a hole in my head  
I didn't want to be that educated

In what lies in your name  
What lies in your bed  
Didn't wanna be that educated

Hold me up, hold me up  
Fold me up, fold me up, fold me up, fold me up  
I didn't wanna be that educated  
Didn't didn't need to be, didn't didn't wanna be

No, your words aren't for me, for me  
No, your words aren't for me, for me  
No, your words aren't for me, for me  
No, your words aren't for me

But i'm still gonna let you love me  
Let you love me  
Let you love me

I'm still gonna let you love me  
Let you love me  
Let you love me

But you burned a hole in my heart  
And then a hole in my head  
I didn't want to be that educated

In what lies in your name  
What lies in your bed  
Didn't wanna be that educated

Should i stop, should i stop, should i stop, should i stop  
Just to start, just to start again  
I didn't want to be that educated  
Didn't didn't need to be, didn't didn't wanna be

No, your words aren't for me, for me

No, your words aren't for me, for me  
No, your words aren't for me, for me  
No, your words aren't for me

But i'm still gonna let you love me  
Let you love me  
Let you love me

I'm still gonna let you love me  
Let you love me  
Let you love me

You burn a hole in my heart  
You burn a hole in my head  
I didn't want to be that educated

In what lies in your name  
What lies in your bed  
Didn't wanna be that educated

Should i stop should i stop should i stop  
Just to start, just to start again  
I didn't want to be that educated  
Didn't didn't need to be, didn't didn't wanna be

But i'm still gonna let you love me  
Let you love me  
Let you love me

I'm gonna let you love love love me

I'm gonna let you love me  
Let you love me  
Let you love me

I'm gonna let you love love love me

I'm still gonna let you love me  
Let you love me  
Let you love me

I'm gonna let you love love love me

I'm gonna let you love me  
Let you love me

Let you love me

I'm gonna let you love love love me

Gonna let you love me

Gonna let you love me

I'm gonna let you love love love me

Love love love me

Love love love me

I'm gonna let you love me
