

# Up and Gone

## Jason Boland & The Stragglers

Ive been staring out the door  
Beat down by the ceiling  
Shackled to the floor  
Lately laid back is just no fun  
Lets find ourselves lost somewhere  
In the hill country sunCause today  
All I want to do  
Is to ride around this old town with you  
When tomorrow comes  
Ill sing my leaving song  
And like a puff of smoke  
Ill be up and goneDo something even if its wrong  
A king and queen for an afternoon  
Beats a lifetime as a pawn  
We'll find us a place beneath the shade  
And we wont stop until  
All the loves been madeChorusLets put on our rambling shoes  
Take the path less taken  
And out run those bluesChorus
