

You Make Me Happy

Clare Bowditch

Last Night I couldn't sleep
The bed felt awful cold
You say you want some space
You say you want some space
You won't pick up the phone I never said that I was easy
Always pushing for the best
Well that's just because i believe
I believe in you baby
And this i must confess You make me happy
You make me happy
You shouldn't be alone
Baby come on home
And make me happy Your hiding in the corner
You've got nothing to hide
You think i'd let you close
You think i'd let you close
If you weren't good on the inside And I see how you try
I want you all the time
You think your wings are broken
Your wings they aren't broken
I wish you wouldn't fold them You make me happy
You make me happy
You shouldn't be alone
Baby come on home
And make me happy
