Analog

Soulpersona & Princess Freesia

One for you and me
I got the pressure building
Like a stellarsonic superline

Strut that symphony
Iâ€™m like a dandylion
Purring into your anatomy

My claws are scratching on the right back, baby (oh!)
My paws are pouncing on the right snack, baby (oh!)
So put the needle on it
So put the...needle
So put the needle on it
So put the... AH!

Flash dance strip my heart
I cannot stop the rhythm
Thighs are muscling some overtime
Fix my mane with silk
I got the Prada product
Swirling lacey like a glamour dime

My chip is betting on the knight black, baby (needle!)
Iâ€™ll sip that brandy for a night cap, maybe (needle!)
So put the needle on it
So put the...needle
So put the needle on it
So put the... Let's go!

High waist, got the taste
I got the polyester
Makinâ€™ honey with the clementines (ohhh, needle!)
Shoulder pads are in
Thereâ€™s something blazer purrfect
Like a razor with a supershine highlight (ohhh, needle!)

My nails are tapping on the eight track baby (needle!)
Iâ€™ve got my retroriffic, itâ€™s splicing, FRESH!
So put the needle on it
So put the...needle

So put the needle on it
And Iâ€™m moving to...

Analog (heavy fever)
Say my name
It goes Analog (heavy fever)
Everyday
I feel Analog (heavy fever)
Makin' my way
With the analog (heavy fever)
And thatâ€™s A-Ok

So move it up to the lowest lane of the light
So keep it up to the level, dy-no-mite
Hey DJ!
Put the needle on it
Just put the...needle
Put the needle on it
Just put the... Let's go!

Hey DJ! Let's go! (x2)

Your hands are wrapped around the right glass, baby (oh!)
I got Madonna kitty (oh!)
My grace is...class
Your chips are betting on a sure-shot lady (oh!)
My Dallas tastes delicious (oh!)
My touch is...hot!
You know that beat is uber mondo, baby (needle!)
Itâ€™s tasting mega juicy, so bite me, rawr!
Now put the needle on it, you want the needle on it
Thereâ€™s nothing that compares to the sound of my...

Analog (heavy fever)
Say my name
It goes Analog (heavy fever)
Everyday
I feel Analog (heavy fever)
Makin' my way
With the analog (heavy fever)
And thatâ€™s A-Ok

So move it up to the lowest lane of the light
So keep it up to the level, dy-no-mite
Hey DJ!

Put the needle on it
Put the...needle
Put the needle on it
Put the...needle

Let's go!
