Say It With Love

La Bouche

When I am all alone, I think of you
The way you kiss is something I never knew
You know how you look at me with your eyes
Tell me that I'm somebody specialAnd there's no one who makes you feel like this
Somehow I believe that you mean itSay it with love, straight from your heart
And make my dream come true
Say it with love, know from the start
That I'll always love youWe haven't been very long together
But I know you're the answer to my favorite prayer
When I tell you you're beautiful
You better listen and know that I mean itNo one can make me feel like you
No other one I will love for the rest of my lifeSay it with love, straight from your heart
And make my dream come true
Say it with love, know from the start
That I'll always love youSay it with love, straight from your heart
And make my dream come true
Say it with love, know from the start
That I'll always love youLove, know that I love, say it
Say it with love, straight from your heart
And make my dream come trueSay I'm pretty but say it with love
Say I'm special but say it with love
Say I'm crazy but say it with love
Say it, baby, say it with loveSay you want me but say it with love
Say you need me but say it with love
Say you adore me but say it with love
Say it, baby, say it with loveSay it with love, straight from your heart
And make my dream come true
Say it with love, know from the start
Baby, don't you know that I will always love you?
