Dexys

At first I didn't know how I would be

Without somebody lovin me

Would I be lost inside?

But then I knew no valid love could not fix me

No one could heal that part of me

I'm better off alone

Chorus

Now I can't fuckin wait to go outside and live my life

Unless I'm free

I never gonna be the man I'm meant to be

They said if you don't marry your be lonely

All good men raise a family (oh yeah)

In truth some of them they don't seem so happy

They tolerate misery and that is not for me

Chorus

Come on come oon come on

Sometimes I think I should get some monogamy

And try to fit into society just be like everybody

(One Problem) I I don't wanna live like them

No I don't wanna be like them

I'm the one who must be free

Chorus

Ad libs at end

Why should I buy a book when I can join the library

It don't make no sese to me
