

Have You Seen Her Lately?

Pulp

First you let him in your bed
Now he's moved inside your head
And he directs all the dreams you are dreamin'
I saw a friend of yours today
She called me over just to say
"I dunno if you've seen her lately but God she's lookin' rough" Ahh, no don't go 'round to see him tonight
He's already made such a mess of your life
Find somethin' else to do with your time
(And do it quickly)
While you've still got the chance Do you think he'll fall apart?
Do you think you'll break his heart?
If you leave him on his own
You are dreaming
'Cos he can fasten all his clothes
Tie his laces
Blow his nose
It's time to teach him how to walk
Yeah, teach your baby how to walk away, now No, don't go 'round to see him tonight
He's already made such a mess of your life
Find somethin' else to do with your time
(And do it quickly)
Ooh, you've still got the chance You're not his mother
And you're not sister and brother
He's not even your lover
He's just a piece of luggage, well you should throw away No, don't go 'round to see him tonight
He's already made such a mess of your life
Find somethin' else to do with your time
(And do it quickly)
Ohh, while you've still got the chance No, don't go 'round tonight
He'll never make it right
He's already made such a mess of your life
Find somethin' else to do hoo with your time
(Do it quickly)
Ohh, while you've still got the chance
