Not In Love

Secret Knives

Cherry, cherry, kills, kills
Thought that cupid shot me
With love
It was only a arrow
Just cause we ain't deep
Doesn't mean we cant enjoy the shallow
Never gonna
Make me wanna (x2)
More than fun
If you wanna
Be the one (x2)
Just for now
But
We're not in love
No matter what
It's not enough
We're not in love(x2)
No matter what
It's not enough
We're not in love
It's not enough
We're not in love
It's not enough
We're not in love
Starin at the stars
Got the lights dimmed
Feel a connection
(stars above, staring at the stars above)
Broke a couple hearts

But I'm not trying to start a collection
(no I'm not in love, horny boys don't fall in love)
Never gonna
Make me wanna (x2)
More than fun
If you wanna
Be the one (x2)
Just for now
We're not in love

No matter what
It's not enough
We're not in love(x2)
No matter what
It's not enough
We're not in love
It's not enough
We're not in love
It's not enough
We're not in love
We're not in (tr(l)ust me)
Never gonna
Make me wanna (x2)
More than fun
If you wanna
Be the one (x2)
Just for now
We're not in love
No matter what
It's not enough
We're not in love
