Lost Lover

Tuxedo

Lost lover, won't you come on back to me
Lost lover, with you I'm in ecstacyFar too many lonely nights without you girl
Wondering where you out tonight in the cold, cold world
Don't you know that I want you in my life
Don't you know that I need you by my side, all the timeLost lover, won't you come on back to me
Lost lover, with you I'm in ecstacyLost lover, won't you come on back to me
Lost lover, with you I'm in ecstacyWhat we had was oh so right, can't forget your love
Tossing in my sleep at night, I need your touch
Don't you know that I want you in my life
Don't you know that I need you by my side, all the timeLost lover, won't you come on back to me
Lost lover, with you I'm in ecstacyLost lover, won't you come on back to me
Lost lover, with you I'm in ecstacy
