

Chelsea

Stefy

I can see there's something in your eyes
You just took a fall from paradise
Saw the lipstick on your neck
Maybe you should just confess Oh, oh, oh, oh, oh I don't wanna lose my head today
But I know there's something in the way
Maybe I made a big mistake last night
When I left you alone with Chelsea Chelsea's the kind of girl that's cold as ice
Beautiful with nails filed sharp as knives
She called me while you were kissing
So I could hear what I was missing Oh, oh, oh, oh, oh I don't wanna lose my head today
But I know there's something in the way
Maybe I made a big mistake last night
When I left you alone with Chelsea
When I left you alone with Chelsea You're just a typical guy
And you're typically blind
You can see I'm out of here
And that I said goodbye I don't wanna lose my head today
But I know there's something in the way
Maybe I made a big mistake last night
When I left you alone with Chelsea
When I left you alone with Chelsea
When I left you alone with Chelsea
