

# So Lady

Mary J Blige

I feel so lady when I'm with you  
When I'm 'round you, I feel so lady  
When I'm with you, when I'm 'round you  
When I'm with you, when I'm 'round you  
When I'm with you, when I'm 'round you  
I feel so lady I, I never thought, I could feel so much like a lady  
It's good to have doors open for me by a real man  
Who wants to hold my hand and he's not ashamed  
To be out in public with me, it's the simple things that really turn me on  
Like being kind, being warm to me that makes a man look strong  
And that's why I don't mind spending all my time with him, I feel so I feel so lady when I'm with you  
When I'm 'round you, I feel so lady  
When I'm with you when I'm 'round you  
When I'm with you when I'm 'round you I, I never was the type to wear high heels  
And all that stuff but now I even wear make up  
Because you make me feel like, it's alright with you  
So it's alright with me, boy, you changed my mind about this whole thing  
So I cross my legs and sit up straight, I can wait for our next date and  
I really love the new me and its because of you she's, who I want to be I feel so lady when I'm with you  
When I'm 'round you, I feel so lady  
When I'm with you when I'm 'round you  
When I'm with you when I'm 'round you I didn't know how to be a lady  
I didn't know, I really had it in me  
You showing me the thing that God has given  
I feel so lady, I feel so lady, I feel so lady
